Peter	Example	Employer	Member

\* The applied conversion rates are different between the LPP minimum portion and the extra-mandatory portion. All the details are on [www.profelia.ch](http://www.profelia.ch). Furthermore, the amount on your prefinancing account is not included in the projected retirement benefits.

\*\* Please note that any application for retirement benefits in the form of a lump sum has to be received at least 1 month before to the effective retirement date.

\*\*\* Where appropriate, the amount is valid for all pension plans, subject to applicable legal and tax provisions.

\*\*\*\* Before the voluntary purchase, we proceed to a final calculation for which we need additional information. For this purpose, please fill in the form «Voluntary purchase 2nd pillar» available on our website and return it to us.

Any modification of the calculation elements taken into consideration will result in a change of the indicated contributions and benefits. In all circumstances, the legal and statutory provisions and the data in the file shall apply. This document cancels and supersedes any and all previously established pension certificates.

A registration form to notify unmarried cohabitation is at your disposal on [www.profelia.ch](http://www.profelia.ch) in order to inform us about your situation. Benefits can be provided to a cohabitee only if the insured person has announced cohabitation to Profelia before death by means of the form provided for that purpose.

**1 Pension plan**  
Contract concluded by your employer under which you are insured and which sets out your benefits and contributions

**2 Reference / insured annual salary**  
The insured salary is calculated on the basis of the annual reference salary declared by your employer

**3 Total monthly contribution of the insured person**  
Amount deducted from your monthly salary for occupational benefits as indicated on the salary statement provided by your employer

**4 Savings contribution**  
Portion of annual contributions allocated to funding retirement benefits

**5 Risk contribution**  
Portion of annual contributions allocated to cover disability and death risks, including management costs

**6 Legal and administrative costs contribution**  
Portion of annual contributions allocated to management costs and legal contributions, such as contributions to the Guarantee Fund

**7 Annual credit to the savings account**  
Savings contribution plus any interest on contributions paid in advance by your employer

**8 Projected retirement benefits**  
Indicates the benefits you can expect to receive on retirement. This is a simulation based on your current situation and the conditions in force on the day the pension certificate

**9 62 years - 64/65 years**  
64/65 is the official retirement age, respectively for women and men. It is however possible to take early retirement, but this will have an impact on the level of benefits received. An additional simulation based on early retirement at a lower age, e.g. 62, may be provided for your information

**10 Vested benefits**  
Amount acquired for occupational pension plans at the indicated date and that would be transferred to the new pension fund in the event of a change of employment

**11 Total entry benefits provided**  
Amount brought into the pension fund, which, in principle, comes from your previous pension fund

**12 Withdrawal for home ownership**  
Amount you already received for the acquisition of your home

**13 Maximum withdrawal amount for home ownership**  
Amount you could withdraw on the date mentioned for the acquisition of a home, subject to legal provisions

**14 Maximum voluntary purchase**  
Amount that may be purchased to maximize your retirement benefits, subject to the legal provisions

**15 Pledging**  
Indicates if you have pledged your savings account

**16 Death benefits**  
Benefits that would be paid in case of death before retirement

**17 Grant conditions**  
The grant conditions may be minimal or enlarged depending on the provisions specified in your pension plan

**18 Individual prefinancing account**  
Amount available to finance all or part of the reduction in the annuity in the event of early retirement
